Professional Summary

Enthusiastic and motivated **Python Developer** with hands-on experience in **Python, Django, Django REST Framework, REST APIs, React.js, and MySQL**. Skilled in developing backend applications, CRUD operations, database-driven solutions, and API integration. Strong understanding of **Object-Oriented Programming, database management, debugging, and software development practices**. Hands-on experience building real-world full-stack projects with a strong problem-solving mindset and eagerness to learn and contribute to a professional development team.

Education

Bachelor of Technology (B.Tech) – Computer Science Fabtech Technical Campus, Sangola Graduating Year: 2026

Higher Secondary Certificate (HSC) Sangola Vidhyamandir, Sangola, Maharashtra

Secondary School Certificate (SSC) Matoshree Vidhyalay, Surat, Gujarat

Technical Skills

- **Programming:** Python
- **Frontend:** HTML5, CSS3, Bootstrap, JavaScript, React.js
- **Backend:** Django, Django REST Framework, REST APIs
- **Database:** MySQL
- **Tools:** VS Code, Git, GitHub, Postman

Projects

AI-Powered Inventory Sales Management System

Technologies: Python, Django, Django REST Framework, React.js, MySQL, Pandas, NumPy, Scikit-learn, Google Gemini API

- Developed a full-stack inventory and sales management system using Django REST Framework, React.js, and MySQL for managing products, suppliers, customers, purchases, sales, and stock.
- Developed REST APIs and implemented CRUD operations for inventory and sales management, integrated with the React.js frontend.
- Implemented AI-based demand forecasting using Pandas, NumPy, and Scikit-learn, and integrated a business chatbot using Google Gemini API.

Employee Leave Management System

Technologies: Python, Django, Django REST Framework, React.js, MySQL

- Developed a web-based employee leave management application using Django REST Framework and React.js.
- Implemented CRUD operations and REST APIs for employee and leave management with MySQL database integration.
- Added leave search and status management functionality and connected the frontend with backend APIs using Axios.

Certifications

Python Full Stack Development Certification Kiran Academy, Pune Technologies Covered: Python, Django, HTML, CSS, JavaScript, Bootstrap, MySQL, REST APIs, Git, GitHub
